DEPARTMENT OF PHYSIOLOGY

INFRASTRUCTURE – Our Department is one of the best Department the whole of south India. Our department regularly conducts postgraduate integrated practical series and lecture series for the benefit of postgraduates in physiology in South India. This department has published maximum in the last three years and has brought laurels to the University. This department also conducts regular academic activities apart from the routine lecture and practical classes. It has six fully equipped labs for conducting experiments and practical’s for the UG, PG, Research Scholars and Faculties interested in research. The following are the Infrastructure present in our department.

Department Entrance:
Student performing Hematology Experiments in the Haematology lab
State of art Physiology Museum – Faculty telling the history of the contribution of the various scientist in physiology
Demonstrating the Heart sounds in the Clinical Physiology Lab

Demonstrating how to use tuning fork in clinical physiology
Amphibian Lab

Demonstrating the Amphibian Experiments and its principle for the Postgraduates
Demonstrating Intestinal movements in rats and its relevance in gastro intestinal physiology for the Postgraduates
Electrophysiology Research lab

Demonstration of the recording of Polysomnography (Sleep studies), EEG & Nerve conduction study in the Electro Physiology Lab.

Demonstration of EEG

Demonstration of Nerve Conduction Study
Skill Lab

Our Faculty Explaining the process of Delivery to the Students in the skill lab

Demonstration of IV Cannulation on the Mannequin
Students performing suturing on the Mannequin
Department Library
